

The logo for FUTERA, featuring the word in a bold, white, sans-serif font. The letter 'E' is replaced by three horizontal purple bars.

FUTERA

The title 'Environmental Policy' is centered in a bold, white, sans-serif font. The background of the entire page is a dark blue gradient with several bright, glowing purple and blue diagonal streaks that create a sense of motion and depth.

Environmental Policy

Independent from any manufacturer, developer, or service provider we sell, service and support hardware & software within office technology

Our mission is to be the leader in office technology services, using data to provide the absolute best service through technology, innovation, and hard work. There is no substitute for experience, and we have over 30 years of it, delivering our service to business looking for technology to play a key role in their future. Harnessing the power to transform our customers businesses into more agile, responsible, and profitable companies. We strive each and every day to deliver world class services to our full range of customers across the UK, these services include the following,

This Policy Statement outlines our endorsement and approach to environmental management within FUTERA and intends to communicate to all personnel, the overall aim of our ISO 14001 aligned Environmental Management System.

At FUTERA we regard environmental issues to be especially important and we shall aim to limit the environmental impact which our business has, wherever feasibly possible. For regulatory as well as corporate social responsibility reasons, we shall commit to environmental protection and prevention of pollution and shall fulfil our applicable legal/compliance obligations.

We shall endeavour to operate in a sustainable manner, achieving our business objectives, without compromising the ability of future generations to meet their own needs. A key aspect of sustainability is for all organisations, including us, not to consume natural resources and produce waste/pollutants at a level that will have a significant future effect on the environment.

Awareness of the aspects of our own operations that can have an impact on the environment shall be maintained (eg; use of electricity, sustainable purchasing choices, waste production, etc). We shall also endeavour to influence others outside of our organisation, especially if there is opportunity within services provided for substitution to less environmentally damaging options.

Taking into account our significant environmental aspects and the principles laid out by this environmental policy statement, through our management processes we define and monitor environmental objectives and targets, against which continual improvement can be demonstrated.

I have prepared this statement as my commitment to environmental management at FUTERA

This message shall be communicated and understood throughout the company, and I expect that all persons carrying out work upon our behalf, share these values.

This policy statement shall be made available to the public, upon request and subject to annual review to ensure its continued suitability.
